Digital Bridge Academy

Nationally-recognized, the Digital Bridge Academy (DBA) is an intensive program designed for maximum results. No matter what your current abilities are, in just one semester you discover new skills and use techniques to learn faster, study better and balance your personal responsibilities, so you complete a full-time load of college-courses successfully.

“DBA has given me great confidence that I can go to school and earn a degree and make a difference in my life.”
- Luis

From the moment you start at DBA you rapidly excel. Every course you take at DBA applies toward your Cabrillo College degree.

“Being able to find yourself again is a good feeling and DBA helped me do just that.”
- Maura

An independent research study by DBA’s National Science Foundation funded evaluator confirms that after just one semester, DBA students perform better in college— they double their grade point average and successfully complete twice as many courses per semester. Most important, you develop self-esteem so you feel confident and self-assured, which accelerates your success in college, on the job and in your life.

“I feel that DBA will impact me many more years to come. I was very uneasy about coming back to school after graduating high school ten years ago.”
- Nicole

“Students who attend college full-time are more likely to achieve their degree goal than those who attend part-time.”
— Pew Hispanic Center Report, 2006

Succeed in College
Succeed in Life

Winner, 2007 Rice Diversity Award, California Community Colleges Board of Governors.
Honorable mention, 2007 ¡Excelencia! in Education Award.
Model program featured in “Bridges to Careers for Low Skills Adults” by Women Employed, Great Cities Institute (UIC) and the Chicago Jobs Council.

“Sometime ago I was a person who did not have good self esteem. I let people push me around. I had no self direction... After DBA that has changed. I’ve got direction. I’ve got pride. I see myself as good as anybody else.”
- Patricia

“DBA has helped me to achieve the dream of a university education.”
- Carlos, CSUMB Transfer Student

The Skills You Need To Get Ahead

The program teaches you skills that stay with you for life — and that help you take care of yourself and your family. You learn skills they teach managers in today's leading companies. And every step of the way, you have the support of your teachers and fellow students who share many of your same goals and challenges.

Self-Confidence – When you know your strengths and talents, they become part of your personal toolbox to pull out and use when you need them. Being confident means you know when to lead and when to follow — a quality in high demand by every employer.

Self-Knowledge – Everyone has past experiences that have been difficult. Ignoring those challenges keeps you from being able to move ahead. Here you explore those challenges and transform them into the willpower to change your life for the better.

Leadership – Learn to create and develop high-performance teams by determining teammates' strengths and what is needed so that the team accomplishes its goals – these are essential skills for any leader.

Communication – Write and speak competently so you communicate more effectively and are more comfortable speaking in public. Employers promote people who solve problems with powerful discussion instead of loud arguments.

Project Management – Break projects down to manageable tasks, juggle priorities, effectively lead and participate in teams. Project managers are in high demand in every industry and are paid extremely well for these abilities. Besides, these skills help you get through college faster.

Time Management – Learn to stop wasting time on distractions that don’t lead to your life, education and career goals. Effective time management skills make you a very desirable employee.

Support Services – Find out how to access the services you’ll need to succeed as a student (including financial aid, tutoring, childcare, counseling, stipends and more).

Our Program Has Worked for Hundreds of Students It Can Work for You

DBA is designed to get results — for students from all different backgrounds. We realize that attending college full-time can be difficult, but others like you have done it, and so can you! Statistics show that 75% of Digital Bridge students complete their first full-time semester of degree-level courses successfully while only 37% of non-DBA full-time students complete a full-time semester.*

We’ll even help you get started, walking you through each step of applying to college and finding financial aid that will allow you to attend school full-time. Eligible students receive money to pay for tuition, books and other school expenses.

Come to DBA and double your chances of being successful in college!

Find The Career That’s Right For You

Digital Bridge Academy also helps you choose and prepare for a career you’ll enjoy and find rewarding. Students who have completed the program have gone on to take courses that prepare them for high-paying jobs in fields like healthcare, business, criminal justice, education, engineering, counseling, social work, information technology (computers) and other fields.

Now It’s Up To You

Enrolling in Digital Bridge Academy may be one of the best decisions you ever make. Don’t put off your dreams of finishing college any longer. Contact us now for your free and confidential appointment. Call 831-477-5164 or email us at: wdbacademy@cabrillo.edu.

Your future is waiting for you right here at Digital Bridge Academy and Cabrillo College.
