

# Calculator Usage Guidelines

## For 152 and 154

- Scientific calculators required for 152.
- Calculator with Square Root key required for 154.
- Graphing calculators may be allowed for in-class work and HW at discretion of instructor.
- **No graphing calculators allowed on tests.** Please be aware that some algebra skills—e.g. factoring—can be performed by most graphing calculators.

## For Math 4, 5, 6, and 7

- Graphing calculators may be allowed for in-class, HW, and tests. Instructors may require or prohibit graphing calculators.
- **No CAS (Computer Algebra Systems) calculators allowed on tests.** Please be aware that many calculus skills—e.g. differentiating—can be performed by CAS calculators.

## For Statistics

- Usage of graphing calculator at instructor discretion.

## For Basic Skills

- 254A – no calculators at all
- 254B – arithmetic calculator usage on specified exams (We have a classroom set of arithmetic calculators.)
- 254 – arithmetic calculator usage on specified exams (we state in syllabus that cell phones may not be used as calculators). We have a classroom set of arithmetic calculators.
