1. **Resistance to SSTF – 2009-2012**

- Latest wave – when have we NOT been concerned with student success?
- Access vs. Success – If we demand success, will that negatively impact access?
- Fear of watering down standards
- Nature of our students – many young people are just NOW deciding what college means to them, what they want to do with their life

2. **It’s happening – 2013**

- Repetition, repeatability, BOG fee waivers limitations
- Registration priority – those with fewer than 100 units
  - Ed Plans
  - Orientation
  - Assessment
- Changes in pre-requisite process liberalized; curriculum changes can funnel students into skills acquisition before taking transfer-level courses.

3. **Action agenda.** How can Cabrillo to a better job of helping students to define and meet their educational goals? How can we integrate instructional faculty into what’s been perceived to be student services functions?

- What are the barriers to our students’ success – socially, institutionally, academically?
- Data – what do we know and what do we need to know in order to make improvements?
- What are we doing now that can be replicated?
- What kinds of pilot programs or initiatives can we create this year?
- Oversight committee to keep track of Cabrillo initiatives.
