RE: Request to Modify the Cabrillo College Disciplines List  

On behalf of the Engineering program, I request that the Cabrillo College disciplines list be modified as follows. The course involved, ENGR 12, teaches the use of machining equipment such as mill, lathe drill press, etc… Faculty who would be best qualified to teach these courses could come from a variety of educational and professional backgrounds. Therefore, it is necessary to map this course to multiple disciplines.

Course:  
ENGR 12 Machining Processes  

Discipline(s)  
Engineering, Engineering Technology, Engineering Support, Industrial Technology, Machine Tool Technology, Manufacturing Technology, Sheet Metal  

Cc: Jo-Ann Panzardi, Engineering Program Chair
