The Above link takes you to the article:

*Guided Pathways Demystified: Exploring Ten Commonly Asked Questions about Implementing Pathways* presented by Rob Johnstone and the National Center for Inquiry and Improvement.

This publication is the culmination of a series of six blog posts produced by Rob Johnstone on www.completionbydesign.org between January and June 2015. A companion piece to the Community College Research Center (Teachers College, Columbia University) book *Redesigning America’s Community Colleges: A Clearer Path to Student Success* (2015), this resource is designed for higher education leaders and practitioners ultimately tasked with implementing change on our campuses. It addresses real concerns about compromising our higher education values, practical considerations about control and enrollment, and apprehensions about the impact on students’ learning and development—all issues that will need to be addressed to successfully pursue a guided pathways effort.
