On at least an annual basis, normally during the regular meeting in July, the Board will review and discuss Board performance during the past year.

Comprehensive Board self-evaluations will be conducted at least once every three years using an evaluation instrument designed to produce constructive feedback for improved performance.

Accomplishment of current year goals, development of next year’s goals will be completed along with the self-evaluation.

The board in its discretion may deviate from this schedule but will complete an annual evaluation in a timely way.

Following approval, the Board’s annual goals are posed on the District’s website.
