**\*\* MEDIA ALERT \*\***

## **Cabrillo College Announces Allied Health Photography Installation Opening and Reception - Friday, February 3 at 8:30 a.m.**

The Cabrillo College Allied Health faculty and staff are proud to present a new photographic installation in the main lobby and upstairs Collaborative Learning Center of the Health and Wellness building. This display is the result of a collaborative project between students in the Cabrillo College Photography program and students from the four Cabrillo Allied Health programs, including: Dental Hygiene, Medical Assistant, Nursing and Radiologic Technology.

Student photographers **Ted and Carrie Tahquechi** worked with students from each of the Cabrillo Allied Health programs to capture images of the students at work in their laboratory learning environments. These beautiful black and white photographs capture the intense concentration, commitment and caring that is an integral part of learning to work in the health professions.

These photos serve as visual reminders of the incredible successes of Cabrillo students who continue to pursue their education and learn skills to serve the community. The Medical Assistant Student Club has provided funds to pay for the reproductions, and Bay Photo Lab provided a generous discount to help with the project.

Please join us on Friday, Feb. 3<sup>rd</sup> in thanking the photography students for their ability to bring alive the skills and learning that go on in the new, Cabrillo College Health and Wellness complex, which was opened in fall 2010. This display of 12 large photos, printed on specially coated aluminum sheets, represents the four Allied Health programs and will provide an enduring visual testimony to the dedication and hard work that goes into becoming successful in these fields.
