Cabrillo College Engineering Students Give Presentation on Community Service Trip to Guatemala

Thursday, May 8th at 7:00 PM and Friday, May 9 at 1:00 PM

APTOS, CA—This past January, Cabrillo College engineering faculty members Jo-Ann Panzardi and Karl Ewald accompanied eleven engineering students to Guatemala on an experiential community service project abroad.

During the two week trip, students visited the hillside village of Vuelta Grande, near Antigua, which was occupied by 120 families and many homes, but had no electricity or water. The students successfully completed the design, installation, and testing of a rainwater catchment system to provide potable water to the village.

Find out how the students planned and implemented the water catchment system and how it benefited the community of Vuelta Grande at two presentations they will give to the College and Santa Cruz communities about their experiences.

What: Cabrillo Engineering Students Presentation on Guatemala

When: Thursday, May 8 at 7:00 PM and Friday, May 9 at 1:00 PM

Where: Cabrillo Aptos Campus, Room 810
