

NURSING

Mario Zermeno
Critical Care Registered Nurse
Associate Degree Nursing Program

I chose Cabrillo College because the environment is friendly, classes are offered close to home, and it is a great nursing program. I would definitely recommend joining the nursing community and becoming an R.N.

Radiologic Technology

Javaneh Soto, B.S. (R) R.T. (M) (F)
Radiologic Technologist
Associate of Science in Radiology
Bachelor of Science in Health Technology

I chose Cabrillo College because it offered radiologic technology classes at a reasonable price. Cabrillo College is a friendly and safe place to learn. I felt assured and supported by all of my instructors. I would like to keep growing in the field of radiology, and eventually teach.

About the College

Cabrillo College is one of 107 public community colleges in California accredited by the Western Association of Schools and Colleges. The college is located on the spectacular California Central Coast, about 1 1/2 hours' drive south of San Francisco. The main campus is nestled on hills overlooking Monterey Bay in mid-Santa Cruz County. The Cabrillo College Watsonville Center is located in downtown Watsonville at 318 Union Street. For more information call 831-479-6100.

Rupal Patel
Dental Hygiene Student

Cabrillo College instructors are highly motivated and have excellent teaching skills. Cabrillo also has well-equipped labs. I especially like Cabrillo College's library, computer lab, and excellent collection of books. I plan to get my master's in education and a Ph.D. if time permits.

Dental Hygiene

Lorrie Hamel
Medical Insurance Specialist
Medical Assisting Certificate

I was returning to school after a 15-year education gap and was very nervous. Cabrillo instructors encouraged me and enabled me to do the best I could—and I graduated with honors and a 4.0 grade-point average!

Medical Assisting

The information presented in this brochure is accurate as of the date of publication and to the best of our knowledge. It may change at any time. Fees are subject to change. 9/01

Medical Assisting
Medical assisting is the second fastest growing occupation in the nation. We offer an accredited Medical Assisting Program (CAAHEP), as well as other training.
Explore the outstanding training opportunities in the Cabrillo College Medical Assisting Department. Skill categories include patient care, positioning, operating imaging equipment, image quality assessment, and technical factors.
Choose from one course or a combination certificate or more, one program or a combination of courses, certificate, programs, and degrees to fit your training needs.
Explore these possibilities...
• Medical Assisting Program
• Medical Insurance Specialist Program
• Medical Transcription Program
• EKG Technician Skill Certificate
• Medical Receptionist Skill Certificate
• Phlebotomy Technician Skill Certificate
Medical assistants are often hired before completion of their course work for jobs at clinics with starting pay at \$13 to over \$15 an hour.
To start your training or update your skills, call 831-479-6438.

How to Apply
Call to speak with a counselor at 831-479-6274 for information on program prerequisites. Many prerequisite classes are available online, evenings, and Saturdays. When prerequisites are completed, you will move into your chosen allied health career program very quickly. For more information about health career options, see www.cabrillo.cc.ca.us/divisions/bschool/.
Applications are available online at www.cabrillo.cc.ca.us, or by calling the Admissions and Records Office at 831-479-6201.

Radiologic Technology
Radiologic technology is an expanding field in the area of medical diagnosis and treatment. Technologists work in a professional environment at a hospital, clinic, or private office, interacting with patients, physicians, and ancillary workers. Skill categories include patient care, positioning, operating imaging equipment, image quality assessment, and technical factors.
The A.S. degree program begins each fall and includes classroom lecture combined with laboratory applications and specialized off-campus clinical lab experience at local hospitals and clinics. Students may elect to take courses in mammography and magnetic resonance imaging.
Courses are also available for ARRT licensed technologists who wish to obtain continuing education and preparation for certification in diagnostic radiography and the California state certification in fluoroscopy.
RT graduates are in great demand and earn \$18-\$22 per hour, and up to \$30 per hour for additional certifications. Call 831-479-6461 for more information.

Who May Enroll
Students 18 years or older and those with a high school diploma or equivalent may enroll. High school students may enroll with written permission from their school principal and also their parent or guardian.
For information about the nursing program call 831-479-6280.

Nursing
Nursing offers career opportunities that are expanding, including case management, consulting, and research. Nurses work in professional and highly technological settings. The Associate Degree Nursing Program at Cabrillo College begins each fall and includes classroom lecture combined with on-campus laboratory application and specialized off-campus clinical lab experience at local hospitals and clinics. Elective courses are also offered to enhance the student's master's degrees in nursing.
Cabrillo College nursing students learn
• Patient care
• Communication skills
• Critical thinking
• Computer usage
Nursing graduates are in great demand and earn \$35,000-\$45,000 a year, with sign-on bonuses of up to \$5,000.
For information about the nursing program call 831-479-6280.

Financial Aid
Applicants must meet the March 2 priority-filing deadline each year to be considered for all available financial aid for the subsequent school year. The BOC Fee Waiver is available to help eligible students with enrollment fees. Additional types of aid include grant and work-study awards. Workshops are offered to help parents and students better understand the financial aid application process. Call the Financial Aid Office at 831-479-6415. Se habla español.

Dental Hygiene
Are you interested in a well-paying dental career? Dental hygiene is an expanding area in the field of dentistry. The registered dental hygienist is a licensed professional oral health educator and clinical operator who, as a therapist, uses preventive, therapeutic, and educational methods for the control of oral diseases, to aid individuals and groups in attaining and maintaining optimum oral health.
The services of the dental hygienist are utilized in general private practices
• Specialized dental practices
• Research
• Armed services
The A.S. degree program begins each fall and includes classroom lecture combined with on-campus dental hygiene clinical application and off-campus clinical lab experience at affiliated dental clinics. The program is accredited by the ADA and prepares graduates for the Dental Hygiene National Boards and the California State Board Examinations.
Dental hygiene graduates are in great demand. Graduates start at \$25 to over \$40 per hour. For more information call 831-479-6471.

HEALTH CAREERS

NONDISCRIMINATION POLICY: It is the policy of the Cabrillo Community College District to provide an environment free of unlawful discrimination. Discrimination on the basis of ethnic group identification, religion, age, sex, color, physical or mental disability, or sexual orientation in the District's programs, activities, and work environment is unlawful and will not be tolerated by the District. The District strongly forbids any form of discrimination and has enacted procedures to recognize and eliminate unlawful discrimination.
If you have or think that you may have a learning, psychological or physical disability and are in need of reasonable accommodations, and/or assistance with applying to this program, please contact Disabled Student Services at 831-479-6379. Identification of disability is voluntary and will in no way jeopardize program selection. If accommodations need to be made for State and National Registry examinations, the disability must be identified. Limited English language skills will not be a barrier to admission to and participation in vocational education programs. Students and limited English proficiency may need to develop their skills through ESL, English and Reading courses before entering programs with English prerequisites.
