**Program Description:**  
The Academy for College Excellence (ACE) is a nationally-recognized program that has shown significant results. No matter what your current abilities are, in just one semester you discover new skills and use techniques to successfully complete your educational goals. Independent evaluations show that ACE students, following their semester in the ACE Program, accelerate their academic success obtaining more units and successfully completing college courses.

ACE teaches you skills that stay with you for life. You learn skills taught to professionals in today’s leading companies. ACE students are supported by five teachers in a full-time learning community. ACE curriculum utilizes student teams to research community issues and develop action plans for change.

ACE helps you choose and prepare for a career you’ll enjoy and find rewarding. Students who have completed the program have gone on to complete courses that prepare them for high-paying careers in fields like health care, business, criminal justice, engineering, social work, computers, and other fields.

If you haven’t been in school for a while or think you want to associate with a community of successful full-time students then please look into the ACE Program.

ACE courses are described in the Digital Management Career Preparation department and see ACE’s website for more information:
