

MATHEMATICS**Computerized prerequisite verification is required to enroll in Math.**

All students enrolling in a math class must have in the Cabrillo computer system either Cabrillo math assessment scores, prerequisite course grade, or transcripts verifying their math preparation. **It is strongly recommended that students re-assess if their course preparation (either prerequisite course work or assessment score) is more than two years old.** A minimum grade of "C" is required in the prerequisite course.

New students without transfer credit in math from another college must complete assessment in math before attempting to enroll in any math course that has a prerequisite.

New students with transfer credit in math from another college and high school students with math AP exam scores of 3 or higher or transfer-level EAP, ELM, IB, or CLEP test results do not need to assess but must see a counselor to have their records input into the computer before attempting to register. See the Cabrillo College Catalog for more information.

High school students without appropriate AP scores or EAP, ELM, IB, or CLEP test results must complete assessment in math and may not enroll in high school equivalent courses.

Minors without a high school diploma may not enroll in MATH 254A, 254B, 254CM, or 254SI.

Notice: The following resources are available for drop-in tutoring for Cabrillo students enrolled in math classes: Math Learning Center (MLC), Room LRC1074, and the Integrated Learning Center, Room WatA210, in the Watsonville Center. Students in the precalculus and calculus sequence, including MATH 6 and 7, are strongly encouraged to utilize the services of the MESA Transfer Center in Room 834. Hours of operation will be posted online, at the Centers, and outside the NAS Division Office, Room 701.

Be advised: Math 112 is a great option ONLY if your Education Plan does not require ANY course with a prerequisite of Math 154 or 142 or 152.

Confused about the math requirements and your options? Talk to Assessment staff and attend an Education Plan Workshop. Then see a Counselor to make sure you enroll in the correct sequence of classes to complete your certificate, degree and/or transfer requirements.

- **CM** = Computer Mediated: one semester, fast-paced class; material is accelerated. Students complete material using computer software, assisted by an instructor. Ideal for students that need a quick review of the basics.
- **SI** = Supplemental Instruction: one semester, fast-paced class; material is accelerated. Students are supported by one-on-one instructor contact. Great for students that need more help building solid skills and want to complete this level in one semester.
- **A/B sequence**= two semester course sequence. Once you successfully complete "B", then you can move to the next level.
- **Non-Credit = FREE:** Computer mediated, self-paced series of modules to review math skills (arithmetic to pre algebra). There are required lab hours and exams. A passing grade of 80% in all six (6) modules A-F satisfies the pre-requisite for Math 154 and Math 112.
- **Math 112** does not satisfy your math requirements for an AA/AS degree.
