Re: Change in Math requirement for Business Administration major

All students who started at the CCC or CSU prior to Fall 2010 and maintained continuous enrollment (attended either a Fall or Spring term in each calendar year) will be allowed to complete the Math 70 (Cabrillo Math 13) (we will honor catalog rights). Any student who starts new at your school Fall 2010, or starting back in the Fall 2010 after a break in continuous enrollment, would need to take the new MATH 71 (Cabrillo Math 18) for their major.
