Cabrillo College 2018-2019
Requirements for the non-transferable Associate in Science Degree (A.S.)

Requirements for the Cabrillo College AS degree (minimum 2.0 GPA required):

1. 60 units
   Coursework from other colleges may be used to fill requirements but should be checked by a Cabrillo College counselor—12 units must be completed in residence at Cabrillo;

2. General Education
   Complete at least 21 units of general education—Areas A through E below, including one course in US History or one course in US Political Science; Area A-English Language must be completed with a “C” or better. Courses may be used to satisfy both a general education and major requirement—the units will be counted only once toward the degree;

3. Multicultural course
   Complete one course with a multicultural emphasis from one of the GE areas below. The multicultural requirement can be double-counted in the GE area and also fulfill the requirement. Multicultural courses are marked with a #. Coursework from other colleges may be used to fulfill this requirement, however, use of courses from other schools must be checked by a Cabrillo counselor;

4. Math Competency Requirement
   The mathematics requirement may be met by completion of Intermediate Algebra (Math 142 or 152) or equivalent, Algebra 2 or Common Core Integrated Math III at the high school level, or a higher-level mathematics course with a grade of “C” or better. Successful completion must be verified by an official college or high school transcript or by an appropriate score on the Cabrillo mathematics assessment taken prior to February 9, 2019.

5. Major
   A list of approved majors for the Cabrillo College AS degrees can be found in the Cabrillo catalog. Students must follow the course requirements for their major. It is advisable to work with a Cabrillo College counselor to make sure you are completing the courses required both in your major and in general education. For students entering Cabrillo College beginning F’08, the Liberal Arts and Sciences degree requires an 18 unit emphasis. Beginning F’14, this emphasis is limited to Interdisciplinary Studies. Note: Transfer AS degrees are also available in the following transfer majors: Astronomy, Biology, Chemistry, Computer Science, Engineering, General Science, Geology, Mathematics and Physics. Students should follow the major preparation recommended by the 4-year transfer school for these majors along with one of the Transfer GE patterns-IGETC or CSU GE/Breadth. These agreements can be found at www.assist.org.

   For students beginning F’10, all courses in the major or emphasis must be completed with a “C” or better.
