Intermediate Algebra

5 units

**MATH 12**  
Elementary Statistics

5 units

*with optional:*

**MATH 101**  
Support for Statistics

0.5 units

The math pathways presented are recommendations. In the case of some majors, other math options are available. For transfer students, math courses should be selected based on the lower-division major preparation requirements at the intended transfer university. Those specific requirements can be found at [www.assist.org](http://www.assist.org) for 4-year public institutions in California. Please see a counselor for advisement to ensure you are taking the best possible courses given your goal.
