Elementary Statistics

5 units

with optional:

MATH 101

Support for Statistics

0.5 units

or

MATH 10

Survey of College
Mathematics

3 units

The math pathways presented are recommendations. In the case of some majors, other math options are available. For transfer students, math courses should be selected based on the lower-division major preparation requirements at the intended transfer university. Those specific requirements can be found at www.assist.org for 4-year public institutions in California. Please see a counselor for advisement to ensure you are taking the best possible courses given your goal.
