

## Elementary Teacher Education\*

\*The Associate Degree for Transfer (ADT) (AA-T or AS-T) is a unique degree offered at California Community Colleges that provides certain advantages for transfer into the CSU system. Meet with a counselor to discuss whether this degree is appropriate to your educational goal. We offer AA-T or AS-T degrees in the asterisked majors listed.

The math pathways presented are recommendations. In the case of some majors, other math options are available. For transfer students, math courses should be selected based on the lower-division major preparation requirements at the intended transfer university. Those specific requirements can be found at [www.assist.org](http://www.assist.org) for 4-year public institutions in California. Please see a counselor for advisement to ensure you are taking the best possible courses given your goal.
