

Dear Students,

You will produce a Prezi presentation with images and text in class. In order to get the most out of the class time, come to class with ideas for a storyboard or concept map to bring your ideas to life! In order to get started on the creative (fun) part right away, you will need to create an account with Prezi.com **before the first class**. Use this link to create your free account! <https://prezibase.com/how-to-use-prezi-for-free/>.

Also, please bring your favorite digital images and graphics on a thumb drive (png, jpeg), store them online in Google Drive, or send them to yourself in an email to download and access in class.

This class is designed for people with limited to moderate experience with Prezi, but with strong computer skills. The computer skills required are the ability to:

- download and upload files
- use a trackpad or mouse
- open browsers such as Chrome, Safari and Firefox
- be able to easily search the web

Thank you for joining us. See you in class!

- Denise
