Take all 3 classes listed below for just \$249!

Marketing Your Business on the Internet

Find out how to market your business on the Internet, even if you have little or no money to spend! In this practical, hands-on course, you'll discover proven methods that will help you establish an Internet presence and build an online brand identity. You'll learn how search engine optimization (SEO) works and how to track your site's performance using Web analytics. You'll understand how to use online advertising, email marketing, and social media (including blogs) to drive business to your Web site. Finally, you'll learn how to keep your visitors coming back again and again!

Achieving Top Search Engine Positions

The vast majority of Web traffic comes from search engines. That means the most important thing you can do to increase your website's traffic is to improve its search engine ranking. To do that, you have to understand both the art and science of search engine optimization (SEO). Gain the knowledge you need to boost your website's visibility and discover how search engines crawl the Web, rank websites, and find previously undiscovered sites.

By the end of the course, you'll have mastered proven, step-by-step SEO strategies that you can implement right away.

Using Social Media in Business

One of the biggest challenges for most business owners is to find a continuous supply of new customers. Over the past decade, some have differentiated themselves by leveraging the Internet and social media to do just that. As you progress through the course, you'll master a simple process for making social media work for you. You'll learn about the five most popular social media platforms—Facebook, Twitter, LinkedIn, Pinterest, and Google+—and study secrets for using them and other social media platforms to promote your business.
