Online Training For All Faculty, Staff and Administrators To Support Student Veterans

Veterans on Campus is designed to help create a more supportive campus for student veterans. Learn about the unique challenges faced by veterans in their transition to the academic environment. Topics covered include the value student veterans bring, obstacles they face, effective techniques for managing potentially sensitive topics, and best practices for connecting student veterans experiencing post-deployment stress with appropriate support services.

In this innovative online simulation, faculty, staff and administrators engage in simulated conversations with three virtual student veterans, helping each one resolve a challenge they are facing due to their transition.

A survey to assess Veterans on Campus showed:

- 98% reported the course is easy to use, well constructed, and likely to help them help student veterans.
- 98% of participants said they would recommend the course to their colleagues.

Please take advantage of the availability of this training to support our student veterans. For more information, contact Dianne Avelar, LMFT at Student Health Services 831.479.6435

This training is made available to all California community colleges through the CCC Student Mental Health Program, a partnership between the Chancellor’s Office and the Foundation for California Community Colleges (FCCC) funded through a grant from the California Mental Health Services Authority (CalMHSA). CalMHSA is an organization of county governments working to improve mental health outcomes for individuals, families and communities. CalMHSA administers programs funded by the voter approved Mental Health Services Act (Prop. 63) on a statewide, regional and local basis.
