Quotes from Honors Transfer Program transfer students

Amanda Martinez,  HTP transfer to UC Berkeley - Fall, 2012, US History Major
"I absolutely believe that the HTP made all the difference in being admitted into UC Berkeley. The program gave me access to certain opportunities which were otherwise unavailable (such as the Transfer Alliance Program with UC Berkeley, and the Annual Community College Honors Research Symposium), and the rigor of the program fully prepared me for my upper division coursework."

"The HTP has certainly been one of the most beneficial and enjoyable experiences of my academic career, and I would absolutely recommend the program to any dedicated student who seeks to transfer to a great university."

From Brandon Christensen, HTP transfer to UCLA, Anthropology
"The Honors Transfer Program prepared me very well for academic life at UCLA. The coursework, the camaraderie, and the challenges that the professors presented to me have been important for my educational success. Both Michael Mangin and Dave Viglienzoni were excellent at their crafts, and the foundations they built for me have enabled me to succeed with vigor at a world class university."

David Duhl, UC Berkeley graduate in Environmental Economics and Policy
(The Honors Transfer Program’s) increased work load is, in my opinion, a critical point of preparation for university. Working with students who are passionate about their field of study, or academics in general, is also a critical component of being able to succeed wherever you move on to; school or otherwise. The professors in the HTP are actually some of the best professors I have EVER had in my entire academic career. Their support and instruction, humor, and intelligence make them unlikely to be outshone after you transfer."
