Seahawks capitalize on scoring opportunities in first half to win season opener over Canada

APTOOS—It wasn’t as if the Cabrillo men’s soccer team dominated the first half of its season opener Tuesday night against visiting Canada College.

But finding the back of the net on 50 percent of their first-half scoring chances was enough for the Seahawks to start the season off on the right foot.

Freshman midfielder Miguel Acevedo led a flurry to the top right corner in the 9th minute and Huwunui Ahiutari added what would be the game-winner just before halftime, as Cabrillo stayed off the second-half push by Canada to earn a 2-0 victory in non-division play.

The win ends Cabrillo’s three-game losing streak to Canada, which had won the last three meetings by a 1-1 margin. Tuesday’s victory was the Seahawks’ first over the Redwood City Junior College since Nov. 4, 2001 — a 4-0 win during a season in which Cabrillo went 3-3-3 overall.

“We scored two of the four opportunities in the first half,” Cabrillo head coach Paolo Carbone said following the game, which was the season opener for both teams. “As a coach, I’m happy with that. In the second half, I wasn’t too happy because I thought we should have handled the game a little bit better. But again, it’s very early in the season, and I give that to them.”

Following Cabrillo’s two-goal lead at halftime, Canada managed to cut the deficit in half in the 98th minute when Sohi Rassouli’s through ball from near midfield resulted in a favorable one-on-one situation for Luis Sanchez, who beat his defender and quickly lifted a shot to the right corner of the net.

The momentum of the goal never transpired for the Colts, though. In fact, Canada was held without a shot on net for the next 55 minutes of regulation.

Cabrillo eventually settled into a game of half possession, including one episode of keep away that ate up approximately five minutes of clock time.

Carbone is looking for more consistency in that department, however.

“Our pace we have to keep the same pace as we have to have to work it out on game management,” Carbone said. “But you have to be smart because again, early in the season, the fitness level isn’t there yet. So they did pretty well at times, but we have to be more consistent.”

Canada appeared to control the midfield early on in the game, but the team’s first shot on net didn’t come until the 12th minute.

By then, Cabrillo already led 1-0. On a long ball in transition, Seahawks Govenor Realfo and Frank Martello executed a give-and-go pass on the left side, with Realfo feeding Martello’s offering 20 yards out in the center of the field. Realfo’s contested one-timer, though, banked off the crossbar.

Enter Acevedo. The freshman from Watsonville followed the play and connected on an immediate rebound shot just eight minutes into the game.

Cabrillo’s second goal didn’t come for another 34 minutes, when Acevedo had the ball at the 18 and could have taken a low percentage shot on net. Instead, he drew a defender and passed ahead to his right, finding Ahiutari for a much-needed insurance score.

The halftime whistle sounded less than a minute later, with Canada trailing seemingly by two goals — after the Colts produced back-to-back opportunities at the tail end of the first half, including one rebound shot inside the box that sailed high and over keeper Cesar Rocha.

“Two beautiful goals,” Carbone said. “But overall for the first game, I’m pretty happy. We have to work on our fitness, but I’m pretty happy.”
