Cabrillo College seeks redistricting input at meeting

The Cabrillo Community College District will discuss redistricting for its seven districts during its monthly Governing Board meeting tonight.

The meeting begins at 6 p.m. at the Sesnon House on campus, at 6500 Soquel Drive.

Due to recent 2010 Census boundary changes, the Cabrillo Community College District is redrawing district boundaries to reflect population changes. The proposed redistricting will be discussed as an information item on the agenda to allow for public input.

Draft versions of the redistricting maps are available on the Cabrillo College website at <http://cabrillo.edu/associations/governingboard/>.
