Cabrillo hosts Welcome Day

Cabrillo will hold a “Welcome Day” for new students Aug. 16.

The event will include a short welcome, followed by three tracks: enrollment services, education planning and a services tour.

One of the goals of the event is to better prepare students for college and the increased focus they will need to navigate through Cabrillo in the shortest amount of time, according to a news release.

This event is in addition to the required online orientation that all new students must complete before they register (https://sirena.cabrillo.edu).

Invitations to “Welcome Day” have been sent to 1,800 new students and their parents.
