Cabrillo waives tuition for high school students

Cabrillo College announced Thursday that it will waive tuition for Santa Cruz County high school students registering for spring semester. Registration for high school students is open through Jan. 23. Classes begin Jan. 26.

The initiative is designed to promote its new Visual, Applied and Performing Arts classes at its Watsonville campus, according to the college.

These classes are scheduled to allow high school student participation. Students only have to pay the mandatory fees for each class, around $35.

Pajaro Valley Unified School District students earn 3.33 high school units for each college unit taken. College units are also transferable to the California State University and the University of California system.

To apply, students should complete an online application at www.cabrillo.edu, and submit a concurrent enrollment form to the Cabrillo admissions department with a photo ID. Students are also recommended to complete an assessment and online orientation.

The course load limit for waived tuition is 11 units.

The concurrent enrollment form is available in Spanish and English at tinyurl.com/cabcef14.
