

**Institutional Set Standards - Benchmarks**

In 2013, the Accrediting Commission for Community and Junior Colleges (ACCJC) requested that institutions develop local benchmarks in five specific areas: successful course completion, retention, degree completion, transfer, and certificate completion. The Cabrillo College Accreditation Steering Committee agreed that the institutional goals should be set to *meet or exceed the prior five-year average plus one standard deviation* for each of the respective measures. (See the section on Institutional Goals in the 2013 Accreditation Self Study.)
