

# STEM

Science • Technology • Engineering • Math

*Cabrillo College*  
Breakthroughs happen here™

## Check-out the STEM opportunities at Cabrillo!

- ✓ STEM Center for studying and hands-on engineering, physics, computer science, and networking labs.
- ✓ STEM services such as tutoring, academic workshops, mentoring, financial aid consultation, student organizations, career and academic advising, and scholarships.
- ✓ STEM Summer Program, four-weeks (July-Aug), focusing on:
  - Informing students about STEM careers through presentations, tours and speakers
  - Allowing students to actively participate in designing and building various projects
  - Helping students develop college-level computer skills (incl. Spreadsheets, CAD, etc.)
  - Joining a community of STEM learners as they progress through their STEM transfer-track program
- ✓ Articulation and transfer agreements for Engineering (ENGR) and Computer Sciences (CS) with local four-year institutions (San Jose State Univ., Univ. Cal. Santa Cruz, Univ. Cal Davis, Cal. Poly. San Luis Obispo and Cal. State Univ. Monterey Bay).

## Opportunities await you!

**STEM services and facilities at Cabrillo have been centralized and expanded in order to increase the number of underrepresented students in the STEM fields.\***
